Cambridge International School

PROSPECTUS 2025 -26

Apple Tree International School was established in 2006, and now has three campuses in Mirpur. The school is registered with The Secondary and Higher Secondary Education Board, Dhaka.

Apple Tree International School is a Cambridge International School under Cambridge Assessment International Education and a registered member of Cambridge Primary.

Apple Tree International School is a private school under Swedish Management.

The owner and principal Yam Bergstrand is a Swedish citizen living in Bangladesh. Between 1970 and 1995 he worked as an actor, director and journalist in Sweden.

Since 1990 he has also worked as a teacher and child counselor.

In 1994 he was invited by Group Theatre Federation to conduct workshops for young actors in Dhaka through a grant from The Swedish Institute. During the visit he came to know Nasiruddin Yousuff and the late Selim Al Deen of Dhaka Theatre. He came back several times around 2000 to work with Dhaka Theatre and to translate the stage play Hargaj by Selim Al Deen to Swedish.

We believe that one of the most important things with education is to fill students with enthusiasm for learning and studying. This is the significance of our school motto:

“An Independent Life of Learning”

Our students will recognise and honour their Bangladeshi heritage and to build a strong feeling of responsibility as citizens of their country.

21 February: International Mother Language Day is commemorated with a cultural programme where both students and teachers perform

26 March: On Independence Day we listen to first hand recollections of 1971 from invited guests and watch documentaries.

14 April: Bengali New Year is celebrated with different artistic workshops; foodz stalls, pottery painting and simple handicraft.

Air-condition

All classrooms at Apple Tree International School have air-condition.

Laboratories

Our Senior Campus has separate modern and scientifically equipped laboratories for Chemistry, Biology, Physics and Computer Science. All laboratory time is included in the regular tuition.

Core Subjects

English

Increasingly, countries view English as a catalyst for development. The most essential shift is towards communicative teaching; i.e. English as a tool for communication.

Bangla

is a core subject at Apple Tree. Without the proper knowledge of their mother language, and the culture and history that envelops it, students may not be able to master a second, foreign language. We expect all students with Bangla as their mother tongue to sit for Beangla in their O Level.

Mathematics

is taught from practical touch-and-count approach in preschool to more complex strategy building in primary and secondary school. They gradually learn to make models and to develop strategies for problem solving. We want them not only to learn mathematical rules, but learn how to think in a logical, mathematical way.

Computer Science

The ability to handle information in databases, to understand how to use Internet for research, to be able to use different programming languages, to understand website design and animation is becoming a necessity for your future career.

Our Junior Campus is renovated and upgraded to better prepare our students for Cambridge Primary.

All classrooms have plenty of space for activities.

In each preschool grade one room is focused on silent activities with children working in a circle.

Another classroom has a loft and is used for more physical activities.

On the ground floor you find the playground with a slide, play houses and a big sandbox.

Cambridge Reading Adventures

From Kindergarten – Grade 5 Apple Tree students engage in Reading Adventures, a specially designed programme produced by Cambridge to improve reading skills. The programme contains a big variety of books and teachers' guide.

From Cambridge – a guide for parents

Cambridge Assessment International Education prepares school students for life, helping them develop an informed curiosity and lasting passion for learning. We are part of the University of Cambridge. Your child's needs as a learner are at the heart of our approach to education. Our programmes and qualifications aim to give your child a love of learning that will stay with them through school, university and beyond.

Cambridge
Primary

Cambridge Primary is an education programme for learners aged 5 to 11 years. It develops learners' skills and understanding through the primary years in English, mathematics and science. Apple Tree International School is a registered member of Cambridge Primary.

Cambridge Checkpoint is a test for learners after the final year of Cambridge Primary and before O Level courses. It is available in English, Mathematics and Science.

The Checkpoint tests are marked in Cambridge and provide schools with an international benchmark for learner performance. Each learner receives a statement of achievement after and a diagnostic feedback report.

Apple Tree students may sit for Primary Checkpoint in grade 6. Cambridge Secondary Checkpoint is taken at the end of Grade 7. It helps Apple Tree to advise on different progression routes for the O Level.

Cambridge
Secondary 1
Checkpoint

Apple Tree International School admits students from Playgroup to Cambridge O level

The academic year extends from July through June. The first semester runs from school start to winter vacation, the second from January to final examinations.

From Playgroup to grade 2 the school can provide both morning and dayshift classes.

Transport is available.

Libraries

Each school campus has a library with fiction and non-fiction literature both in English and Bengali.

Libraries also have chess, puzzles and other games for silent play.

From Grade 3 all students have Library Time on their routine where they will be introduced to different types of books and encouraged to explore books on their own.

The Main Library in our Senior Campus holds reference books, dictionaries and daily newspapers creating rich resources of information for various classroom projects. It has workplaces for individual studies and facilities for group work and research.

Tuition Fees School Year 2025-26

Admission Fee	
Processing Fee (not refundable) Tk. 500 - Paid when submitting admission documents
